

About The Hanen Centre

Founded in 1975, The Hanen Centre is a Canadian not-for-profit charitable organization with a global reach. Our mission is to provide parents, caregivers, early childhood educators and Speech-language Pathologists/Therapists with the knowledge and training they need to help young children develop the best possible language, social and literacy skills. This includes children with or at risk of language delays and those with developmental challenges such as Autism Spectrum Disorder.

The Hanen Program®

for Parents of Children with Autism Spectrum Disorder or
Social Communication Difficulties

About the More Than Words® Program

More Than Words is a program that provides parents of young children with Autism Spectrum Disorder (ASD) or social communication difficulties with practical tools to help their children communicate.

This unique program was developed by expert speech-language pathologists at The Hanen Centre. *More Than Words* is offered to parents around the world by Hanen Certified Speech-Language Pathologists/Therapists who have received specialized training from The Hanen Centre.

Why Are Parents Involved in the *More Than Words* Program?

Parents are the most important people in their child's life, as well as their child's best teacher. As a parent, one of the greatest gifts you can give your child is the help he or she needs to communicate and connect with the world. In the *More Than Words* Program, you learn practical and powerful strategies to help your child communicate and interact during everyday routines and

activities. It is within these familiar and repetitive interactions that your child's communication skills will grow.

What Parents Learn in the *More Than Words* Program

- How your child communicates right now and the next steps to take
- How your child learns best and how to take advantage of these preferences
- What motivates your child to communicate
- How to turn everyday activities into opportunities for learning to communicate
- How to help your child understand what you say
- How to develop your child's play skills
- How to help your child make friends

The *More Than Words* Program offers:

- A consultation for you and your child with a Hanen Certified Speech-Language Pathologist/Therapist before the program begins.
- A series of informative and personal classes for small groups of parents.
- Three individual consultations for you and your child with your Hanen Certified Speech-Language Pathologist/Therapist during which:
 - you discuss communication goals and specific strategies for your child.
 - you are video recorded interacting with your child during everyday activities. This video is then reviewed and discussed with you so you can “see” what is helping and what else you can do to help your child learn.

Program Materials

The *More Than Words* Program is supported by the Hanen guidebook *More Than Words*. This beautifully illustrated book follows the program's content in a practical and easy-to-understand format.

The *More Than Words* companion DVD follows the content of the guidebook, bringing it to life with video examples of parents using *More Than Words* strategies in everyday life.

What Parents and Professionals Say About *More Than Words*

“My son has made incredible strides due to your program. He has surprised a lot of people... What I really love about your course is that we are taught to work with our children... Your course is invaluable and a must-do for parents, relatives and friends. I am forever grateful.”

Debra, mother of 4-year-old, Anthony

“*More Than Words* is a ‘must-have’ reference for parents of children with ASD, and for professionals supporting parents. *More Than Words* respects the need for parents to be parents and for children to be children – and to learn as children learn, using developmentally appropriate practices. Parents and professionals will love this book and the Hanen approach.”

Barry M. Prizant, Ph.D., CCC-SLP
Director, Childhood Communication Services – Cranston, Rhode Island
Adjunct Professor, Brown University Center for the Study of Human Development

The *More Than Words* Program

Parents learn practical ways to help their child reach the following four goals:

1. Improved back-and-forth social interactions

2. Enhanced communication skills

3. More advanced play with toys

4. Improved understanding of language
